JOAN, BAY MARE DRIVEN BY McDEVITT, WINS TWO HEATS.

Detroit, Mich., July 28.—The performance of Joan, a bay mare driven by McDevitt, in the 2:06 trot, was the feature of the concluding day's card of the local grand circuit meeting today. She got the decision in the head-line by winning the first two heats. She also seemed a sure victor in the third even after a bad break at the first turn. Recovering herself she let out a tremendous burst of speed and overtook the field at the half, only to break again in the stretch and finish last.

Guy Nella and Lucille Speer finished this mile so close together that the spectators thought a dead heat had been run. About 30 yards from the finish Joan put on another spurt and crossed a length ahead of Lucille. In the second heat the field was in single file from the first turn to well into the stretch with Mithril in front and Joan second. Joan repeated her spurt and won by two lengths.

Boston, Mass., July 28.—Clarence J. Griffin, of San Francisco, who won an unlooked for victory over R. Norris Williams, 2nd, of Cambridge, former national tennis champion, in the early stages of the Longwood singles play, was himself the victim of a sensational upset in the fourth round of the tournament today. Griffin was defeated by J. J. Armstrong, of Philadelphia, in five sets, 6-3, 3-6, 6-3, 5-7, 6-4.

TWO GOOD GAMES OF BALL IN CITY LEAGUE TODAY
Immanuel to Take on W. L. I. and Boys' Brigade Plays Delgado.

Two good games of baseball are promised for this afternoon in the City League at the Robert Strang playgrounds. The first game, which is between the Immanuel and the W. L. I. boys, will be called at 3 o'clock. The second game will be between the boys' brigade and Delgado.

The batteries for Immanuel will be Yates or Jacobs and Gerdes, and for W. L. I. Corbett and Bell. The batteries for Boys' Brigade will be Boswell and Griffith, and for Delgado, Holt and Kite.

First place is now held by the Immanuel, while the W. L. I. boys and Delgado are tied for second place. The Boys' Brigade occupies the cellar position.

CARTER AND ORR WINNERS OF DOUBLES CHAMPIONSHIP

Augusta, Ga., July 28.—E. V. Carter, Jr., and J. K. Orr, Jr., both of Atlanta, won for the third consecutive time the South Atlantic doubles championship today by defeating W. L. Carey, of Greenville, S. C., and J. C. Erwin, of Spartanburg, S. C., in straight sets, 7-5, 6-1, 6-0.

In the semi-finals Carter and Orr won over P. H. Winter, of Chapel Hill, N. C., and R. M. Cleveland, of Marietta, S. C., 7-5, 6-3, while Carey and Erwin defeated J. C. Harper, of Augusta, and E. W. Tomlinson, of Atlanta, 6-4, 6-2.

Tomorrow morning Rutledge Capers, Augusta city champion, will meet P. H. Winter, runner up in the recent Carolina tournament in the finals in men's singles. The winner will play E. V. Carter, Jr., tomorrow afternoon for the South Atlantic championship.

PARKTON DEFEATS RAEFORD IN MOST THRILLING GAME
Parkton, N. C., July 28.—Parkton defeated Raeford this afternoon, 2 to 1, in the most thrilling 11-inning game ever witnessed on the home lot.

The game was a pitchers' battle all the way. Weather's pitching in the eleventh, Parkton winning on a walk, a steal, and a two base hit with one out, while Rogers was complete master throughout, two of Raeford's hits being infield scratches. Galloway featured with the stick, getting a single and two doubles out of five trips, driving in the winning run in the eleventh.

Many Contributions Made by Citizens For Relief of the Flood Sufferers. List of Givers.

The contributions by Wilmington citizens for the relief of those who suffered from the floods continue to be made in increasing numbers although no active canvass has yet been made nor will be in order to secure this money which is so badly needed. The amount received so far by the members of the State Relief Committee is \$1,267.45.

As fast as the money is received, it is immediately forwarded to the State headquarters to be distributed among those in need as may be considered most wise. Col. Walker Taylor and Mr. Hugh MacRae, of Wilmington, who were appointed members of the State Relief Committee, have charge of the campaign in this city, and are receiving the cordial co-operation of the local papers, the ministers and the citizens generally. The response to their appeal has been very generous.

The Wilmington fund is at date as reported in this paper follows:

HEAT WAVE COMING
Hot Spell To Rival That of 1900 Expected Shortly.

According to Weather Observer Pelger's prediction, the wave of excessive heat and humidity, which is headed northward from the Bermudas, is due to reach Wilmington in a few days and will in all probability rival the memorable heat wave of 1900.

The phenomenon is approaching slowly and each day will be marked by gradually rising temperature that will shortly culminate in a heat wave of such intensity as is seldom experienced outside the tropics, says the weather observer.

The forecasts from Washington last night indicated that the wave would continue high temperature over the interior districts east of the Mississippi river, with showers in the extreme south today and Sunday.

The highest temperature recorded in Wilmington district yesterday was at New Bern where 90 degrees was registered. The highest in the Southern district was at Little Rock where the mercury touched 93 during the day. Wilmington's highest yesterday was 86.

CAROLINA BEACH GUN CLUB HOLDS ITS INITIAL SHOOT
Attractive Log Cabin Club House is Being Constructed at Beach.

On the occasion of its initial shoot held yesterday afternoon at Carolina Beach, the Carolina Beach Gun Club had as its guests about 30 members of the Southport and New Hanover Gun Clubs.

The high man at the shoot was Mr. Geo. S. Boylan, who made a score of 45 out of 50; Dr. J. H. Dreher and Mr. L. B. New York tied for second place with scores of 43 out of 50.

Col. Robert Stride and Dr. Doherty, of Southport; and Col. Walker Taylor and Messrs. J. Lawrence Sprunt and F. W. Dick, of New York, were among the winners from the visiting clubs, who attended the shoot. In addition to the men who participated in the shoot, there were a large number of ladies in attendance.

The Carolina Beach Club has only been recently formed, but already has 15 members. Just south of the hotel a fine log cabin club house is already in process of construction. Visiting members were very much impressed with the fine grounds which have been laid out.

WELSH-OUTFOUGHT BY BENNY LEONARD IN EIGHT ROUNDS

New York, July 28.—Benny Leonard outfoought Freddy Welsh, the light ten-round bout in Brooklyn tonight. The bout was held in the open at the old Federal League baseball park. Welsh was in much better shape than when he fought Roy Harris right weight about four months ago. The champion's weight at the ringside was 135 1-4 pounds while Leonard weighed 132 1-2. Leonard seemed just a trifle over-trained.

Both men clinched occasionally toward the end of the bout, but Welsh was the more guilty of the two in this respect.

New York, July 28.—Roy Harris, veteran outfielder of the New York Americans, was released today to the Baltimore club of the International League following the recall by the New York club of outfielder Elmer Miller from Baltimore. Harris entered the American League with St. Louis in 1908 and has been with the Yankees since 1911.

J. L. Burgess Tells of Conditions in Wilkes County

Says People are Working Heroically and Need Assistance—Corporations Now Being Assessed—Military Promotions.

(Special Star Correspondence.)

Raleigh, N. C., July 28.—State Agronomist J. L. Burgess, of the State Department of Agriculture, just back from the Wilkes county section of the Western Carolina flood region, says that while near \$20,000 seems to have been raised already for the relief of this section, he is satisfied from personal observation and reliable reports that \$100,000 will not be sufficient to even patch up the damages produced by this flood in that section.

In co-operation with C. C. Wright and other leading citizens, Mr. Burgess aided farmers in getting certain emergency crops planted where the earlier crops had been washed out and left them planting corn and other forage and moving intelligently for the procurement of all kinds of seed that can be made productive this fall. There is under way a complete survey by the local and central committees for the section and he expects there will be very quickly an accurate record of people in distress and the general extent of the damage. He believed the central committees for this section is very competent to administer the relief and that outside funds entrusted to them will be most wisely and fairly applied. While the people are working heroically, it will require months to get the section back to anything like normal.

Governor Craig is expected to arrive tonight from Asheville, having been en route three days. In the meantime checks continue to come to the executive offices here in addition to those that are coming through the general relief committee, which has now mounted to near \$25,000. In the Governor's mail this morning was a check for \$50 from T. H. Southgate, of Norfolk; also, one for \$5 from Dr. J. P. Whedbee, of Norfolk.

Assessing Corporations.
The Corporation Commissioners are now giving their personal attention to assessing the 4,000 corporations in this State for taxation, a task that is most exacting and will require several weeks. The commission has just made an order for the Norfolk Southern to put in a siding at Wilson for the use of a packing company.

A. D. Dupree has resigned as grant clerk in the offices of the Secretary of State and will locate in Augusta, Ga., in the insurance business. He will be succeeded August 1 by Frank W. Brown, of Greenville. Mr. Dupree was also from Greenville and came to succeed the late George W. Norwood.

The Catawba-Statesville Ferry Co., of Catawba, received a charter today with \$500 capital authorized and \$350 subscribed by W. B. Walker and others for maintaining a ferry in the place of a bridge lost in the floods.

A number of military promotions were announced today as follows:

First Lieutenant J. W. Harrison is promoted to Captain commanding the First Company Coast Artillery, Raleigh, vice W. D. Morrow, retired. S. C. Chambers, Durham, is promoted from captain of the Durham company M. of the Third regiment, to Major to succeed Major W. F. Moody, retired to reserve corps. First Lieutenant W. E. Page is made captain of company to succeed Major Chambers. And second lieutenant L. P. McClendon is made first lieutenant and F. L. St. John second lieutenant of the Durham company.

York Coleman, Rutherfordton, is promoted from second to third lieutenant of Company K Third regiment.

Second Lieutenant J. A. Currie, of Lumber Bridge, is made first lieutenant of company L, Second Infantry.

GOVERNOR CRAIG TAKES CHARGE RELIEF WORK

Travels 850 Miles to Reach Raleigh From Asheville.

Issues Statement Emphasizing the Great Need for Help in the West and Praising Spirit of Liberality.

(Special Star Telegram.)

Raleigh, N. C., July 28.—Traveling 850 miles to get from Asheville to Raleigh, Gov. Craig arrived this afternoon and took personal charge of the relief work for flood sufferers. In a statement commending the work of the general committee and liberality of the people, the Governor says the demands for relief in many sections are great and imperative and funds badly needed and "we must continue to call earnestly upon all the people of the State with unflinching faith that this call will meet with genuine response."

Asheville, Governor Craig says in the statement, has acted heroically for the relief of sufferers in that section and Hendersonville cared for sufferers in the Bat Cave and Chimney Rock section. There are sections that cannot provide for themselves, says the Governor, and the whole State seems to be coming gladly to their relief. He is delighted that North Carolina loyalty is not diminished by removal to the other states, as evidenced by great numbers of checks coming from former North Carolinians. He says the spirit manifested in and out of the State inspires a feeling of exaltation in every man.

"Floods have visited communities with financial ruin," the statement of the Governor says in conclusion, "but it has called forth the highest sentiments of humanity whose value can not be estimated in dollars." The chairman of the general committee deposited over \$7,000 today as receipts for Wednesday and Thursday and the fund is now around \$30,000. Much clothing is being sent and offers have been accepted to give supplies where money is not available. D. Y. Cooper, Henderson, and T. A. Uzell, New Bern, are added to the general committee.

A letter from Taylorsville says there are at least 150 needy families in that section.

SANTIAGO RAMIREZ, FORMER VILLA GENERAL, EXECUTED

Laredo, Texas, July 27.—Santiago Ramirez, a former governor of the Mexican state of Coahuila and later a villa general, was publicly executed on the plaza at Saltillo, Mexico, Monday afternoon, according to news reaching Nuevo Laredo tonight from an authentic source. Ramirez, it was stated, had left Mexico with the dwindling of Villa's power and had returned recently to offer his services to General Carranza when war between the United States and Mexico seemed imminent.

QUALITY VARIETY

THEATRICAL

Many and oft are the tragedies of life portrayed by the photoplay, but no "script" was ever so full of the heart-stirring pathos; no scenario ever contained a more dramatic incident than that which occurred recently when S. Rankin Drew, of the Vitaphone studios, made into photoplay form that great six-act Vitaphone Blue Ribbon Feature, "The Vital Question," which is today's attraction at the Royal theatre.

Starting in this superb dramatic masterpiece is that beautiful and accomplished emotional star, Virginia Pearson, with an all-star Vitaphone supporting cast including Charles Kent, George Cooper, Anders Randolph, Denton Vane and Leo Delaney.

"The Vital Question" has a powerful appeal because of the intimate human nature of the question involved. This wonderful Vitaphone Blue Ribbon Feature settles for all time the fact that a woman should marry for no other reason than love. And proves that a union without love, no matter how noble a sacrifice may inspire it, in the end is always a failure. In other words, a woman should never throw her opportunities of wifehood, even to help others who may be near and dear to her.

Virginia Pearson registers one of her very best roles in this great feature, and it is to be presented at the minimum Royal prices today.

Ford Sterling at Grand.
Dear old Ford Sterling! If the autos he has torn up and the brick walls he has broken down were all together, they'd make a pile as high as the Woolworth building! And he makes his first appearance in a great two-reel Triangle-Keystone comedy at the Grand today, playing opposite pretty Polly Moran, and an all-star Keystone cast in a great two-reel comedy scream, "The Hunt."

Ford Sterling is the original slapstick comedian and all the other guys borrowed their stuff from him, so you

park and the lake nearby, and you will simply fall off your seat in convulsions of laughter.

And then comes Animated Weekly, the world before your eyes in pictures. These weeklies are getting to be the most popular features at the Bijou, and anyone can keep up with all the big doings of the world by following them.

LUMBER PLANT SHUT DOWN

On Account of Heavy Rains at Mount Olive—Crops Damaged.

(Special Star Correspondence.)
Mount Olive, N. C., July 28.—The unusually heavy rains of the past few days have compelled the Enterprise Lumber Company to cease operation of its main plant here, due to their inability to get logs. The mill has been idle practically all of the week. The logs for the mill are secured across a large swamp from the mill and, in view of the fact that this swamp is still rising there is no telling now just when the mill can resume operations.

Only cotton and tobacco, it is thought, has been damaged to any extent as a result of the recent rains. Nor can it be stated definitely at this time what the probable damage to these crops will be, but it is generally believed that it will be quite a good bit. Already in some sections tobacco is said to be wilting and dying and, should there come a few fair, hot days, cotton will begin to shed its fruitage very badly, say the farmers. It is not thought that the corn crop has been damaged to any appreciable extent.

PRIMARY FOR JUDGE WINSTON

Method of Nominating Decided Upon by District Committee.

Weldon, N. C., July 28.—The Democratic executive committee of the Third Judicial district met here yesterday and called a primary to be held Saturday, September 9, to nominate a judge, to be voted for in the general election in November, to fill the unexpired term of the late Judge Peebles.

J. O. CARR IN WASHINGTON

Introduced at Department of Justice. Meets Assistant Attorney General Graham.

(Special Star Telegram.)
Washington, D. C., July 28.—James Osborne Carr, whom Senator Simmons recommended for appointment as District Attorney for the Eastern part of the State, came to Washington today and called on Assistant Attorney General Graham. He was accompanied to the department by Joe Taylor and Hubert Martin, secretaries to Senators Simmons and Overman, respectively.

Mr. Carr's visit to Washington is in line with the policy of Attorney General Gregory, who desires to look over prospective appointees before their names are sent to the Senate for confirmation. It is known that Mr. Graham was favorably impressed with Mr. Carr and there is every reason to believe his nomination will be made within a very short time.

Men who have visited Washington since the Wilmington man was recommended for the job say his appointment will be one of the most popular made in the State in a long time. Carr has been practicing law for many years and is well and favorably known throughout the State. Incidentally he has been a consistent follower of the teachings of Jefferson both in law and in prosperous times.

ALFRED LYNCH NOT LOCATED

Lenoir Sheriff's Trip to New York City All in Vain.

(Special Star Correspondence.)
Kinston, N. C., July 28.—Alfred Lynch has not been captured in New York, it is stated officially at the sheriff's office here. Sheriff A. W. Taylor knows. Taylor has just returned from New York, to which city he went early in the week, taking with him a local man who declared to him that he had seen Lynch within the past month and talked with the murderer of Manly Hatch. Lynch, a mulatto, with Indian blood in his veins, cut a deathly path, an Onslow county lumber camp commissary keeper, a couple of years ago, and made a sensational getaway from the Kinston police in an automobile race with officers. He has been boldly into the city, and when the police got wind of his appearance, escaped through having chartered a faster car than the officers had at their disposal. When Sheriff Taylor arrived in New York this week he was so anxious to get Lynch that he went straight to the police commissioner. He was promised all assistance by the department head. But at the detective bureau metropolis sleuths proved that the Kinston official's companion had given an address which did not exist. They "made a monkey" of the spy. Sheriff Taylor followed him for several days to places "where Lynch might be," and finally gave up the hunt. He left the man in New York and returned home.

ROCKWELL WINNING FAME AS OFFICER IN AVIATION CORPS

Columbus Boy in French Army Gets His Name in the Papers.

(Special Star Correspondence.)
Whiteville, N. C., July 28.—Kiffin Rockwell, a Columbus county boy and of more recent years a resident of Asheville, is winning fame as an officer in the French aviation corps, reference to which was made in this correspondence a few days ago. A Paris special by the International News Service under date of July 24th has the following to say with reference to young Rockwell:

"Kiffin Rockwell, the daring young American aviator from Atlanta, Ga., has added to his laurels by shooting down his third German war plane. The sky combat took place on Friday amidst the clouds 10,000 feet above the ground. Rockwell was reconnoitering with Bert Hall above the German lines when he sighted a German machine ahead and gave chase. Meanwhile, two German aeroplanes, which were above Rockwell, and which he had not seen, swooped downward. Hall joined the fight but in the meantime Rockwell had got the range of one of the hostile machines and shot it down soon. The two Americans then returned through the clouds to their own lines. Both machines were riddled with machine gun bullets, but neither aviator was hit."

Stomach Full of Gas, Liver Not Acting?

A Wineglassful of Tollo Water Will Start Your Liver and Relieve Your Stomach in Half an Hour

The liver frequently becomes clogged because we eat too much rich food and take too little exercise. If it is kept clean and active we would never have sour, gassy stomachs, sallow skin or become constipated and bilious.

Strong drugs are dangerous, they weaken the system. A third of a tumbler of Tollo Water in a glass of plain water before breakfast will flush out all the bile and waste matter from your system in half an hour. Your headache will disappear at once, your eyes will become bright and clear, your meals will no longer distress you by forming gas that bloats the stomach.

Tollo is a concentrated water from Dawson Springs, the famous Kentucky health resort. Its occasional use will keep the liver active because it flushes, really bathes, the liver, dissolving the obstructions and washing out the bile tubes. It will keep the bowels regular as a clock and prevent the accumulation of waste which sours in the stomach and makes every meal a torture.

Get a 15-cent bottle from your druggist and take a little every morning until the system has been thoroughly cleaned. Sold by D. A. Elvington and other druggists.

CALOMEL WHEN BILIOUS? NO! STOP! MAKES YOU SICK AND SALIVATES

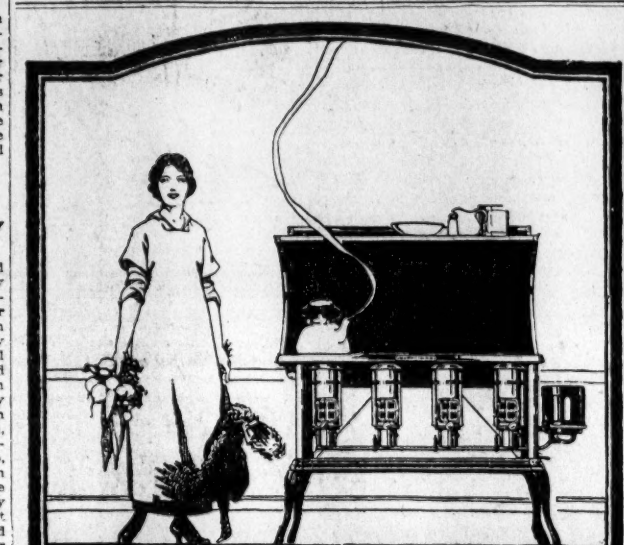

"Dodson's Liver Tonic" is Harmless To Clean Your Sluggish Liver and Bowels.

Ugh! Calomel makes you sick. It's horrible! Take a dose of the dangerous drug tonight and tomorrow you may lose a day's work.

Calomel is mercury or quicksilver which causes necrosis of the bones. Calomel, when it comes into contact with sour bile crashes into it, breaking it up. This is when you feel that awful nausea and cramping. If you are sluggish and "all knocked out," if your liver is torpid and bowels constipated or you have headache, dizziness, coated tongue, if breath is bad or stomach sour, just try a spoonful of harmless Dodson's Liver Tonic tonight on my guarantee.

Here's my guarantee—Go to any drug store and get a 50 cent bottle of Dodson's Liver Tonic. Take a spoonful and if it doesn't straighten you right up and make you feel fine and vigorous I want you to go back to the store and get your money. Dodson's Liver Tonic is destroying the sale of calomel because it is real liver medicine; entirely vegetable, therefore it can not salivate or make you sick.

I guarantee that one spoonful of Dodson's Liver Tonic will put your sluggish liver to work and clean your bowels of that sour bile and constipated waste which is clogging your system and making you feel miserable. I guarantee that a bottle of Dodson's Liver Tonic will keep your entire family feeling fine for months. Give it to your children. It is harmless; doesn't gripe and they like its pleasant taste.

WHITEVILLE TOBACCO MARKETS TO OPEN NEXT WEDNESDAY

Quite a Number of Buyers and Warehousemen Already on Hand.

(Special Star Correspondence.)

Whiteville, N. C., July 28.—It has been decided by the Whiteville and Growers tobacco warehouses this week to open the Whiteville market on Wednesday, August 2nd, instead of opening with the other other markets in the belt on Tuesday, the first. Quite a number of buyers and warehousemen have already arrived and both warehouses here are expecting a highly satisfactory "break" on the opening date. The outlook has considerably brightened in the past few days, the tobacco men say, and the growers generally seem well pleased with the outlook. Mr. H. G. Tuggle, who was connected with the Whiteville warehouse last season, has arrived and will be on the market for Dibble Brothers this season.

FAIR BLUFF FLOODED

Lumber River Overflowed into Main Street of Town.

(Special Star Correspondence.)

Whiteville, N. C., July 28.—Reports reaching here this morning from Fair Bluff are to the effect that the water in the Lumber river is running over the banks there and up into the main thoroughfare of town. No damage is reported and the water is receding, but pedestrians have encountered some difficulty in getting about. Mail for route No. 2 from Whiteville that goes to Welch Creek township, instead of Western Prong as reported in this correspondence yesterday, was delivered today, the substitute carrier receiving it on the opposite side of the White Marsh this morning.

New York is the seat of invisible

In New York on Monday the Republi-

up to the head of a trust so he could
hold up everybody. It is a good idea to
keep your eyes skinned for some men
who start life without a cent.

THE GREAT AMERICAN KICKER

Along with boasted ideals goes the
Americanism that registers itself with
a kick. The habit seems to have
grown on the country from Maine to
Texas, and the kickers have to be reck-
oned with at that. They kick like a
Texas steer and often have about as
much reason as the Texas bovine. Nev-
ertheless, it is always a good idea to
investigate all kicks, in order to find
out the motive or to ascertain whether
or not it is a newspaper kick.

It has been reported that the Na-
tional Guard on the Texas border has
registered various kicks, but most of
them are newspaper kicks. The Guard-
men were reported as kicking about the
quality and quantity of the grub
served to them, but General Bliss in-
vestigated and pronounced it a delib-
erate falsehood.

Probably a few connoisseurs who
were "never raised to be a soldier" have
kicked about army cuisine, but, of
course, they don't represent the
whole Guard. The probability is that
most of the fellows get as good or
better than they have usually gotten
at home. There is also a newspaper
report that the Guard has kicked be-
cause the government did not send
them to the Mexican border in Pull-
man cars. Maybe one or two did kick,
or some humorist started something.
Whoever heard of a soldier who ex-
pected anything else but to march
through rain, snow and mud, or to be
shipped as freight, owing to the lack
of transportation facilities to accom-
modate thousands upon thousands of
men at one time in sleeping cars?

Probably the boys are not kicking
half as much as the politicians at home
are making them kick "on paper." The
home folks also are kicking for politi-
cal and otherwise just to kick. The
Indiana lady who kicked to Presi-
dent Wilson and wanted her boy sent
right home, got a very nice answer
from the President. Mommer never
raised her boy to be a soldier down on
the Rio Grande. Mrs. Henry Smith, of
Winamac, Ind., kicked and wanted her
boy sent right home. The President
acted nicely about it and informed her
that her boy was sent to the border
as a patriot to protect the country.
They were not sent there to drill, he
explained, but to perform a high duty
of which any American should feel
proud.

President Wilson did not inform her
that war is hell and that serving on
the Mexican border is two hells. Of
course, he didn't although he knows
and so does every man who has been a
soldier that men on any kind of mili-
tary expedition have to put up with a
great many inconveniences, discomforts
and hardships and even are lucky if
they don't die, get maimed or killed.

War or a state of war is no picnic,
and being in the army when something
or other has to be done is no ice cream
festival. People don't seem to be used
to being soldiers any more, but it is
because this is not a militaristic na-
tion. Mobilizing the National Guard
also shows that, but because the at-
tempt to put the Guard into service
has met up with so many unexpected
difficulties there is a big and serious
kick, such as this from the usually
sage and sedate Manufacturers' Rec-
ord:

"The Merchants' Association of New
York, one of the leading business or-
ganizations of the country, has, through
the chairman of its military com-
mittee, taken a position in regard
to the sending of the State militia to
the Mexican border directly in line with
the views heretofore expressed by The
Manufacturers' Record. In a special re-
port it shows how great was the blun-
der committed in sending these troops
unprepared and unequipped to Texas
and the folly of having required these
troops, under moral compulsion, to
take an oath of six years' service to
the National government at a time
when they were subjected to this moral
compulsion without an opportunity to
consult friends or business associates.
Reports in the daily papers and from
well-informed, reliable business men
who are in touch with the situation on
the Mexican border, show the helpless
inefficiency of the whole system. Four
weeks after these troops had been called
out some of them were still without
ammunition, and only within the last
day or two have horses been provided
for cavalry.

"One striking illustration of the
curse of red tape which seems to be tied
around the intelligence of the depart-
ments at Washington, and this is only
one of many, is seen in the mere mat-
ter of payment of the troops. When
the Maryland troops were in camp in
this State they signed payrolls sent
by the government, and expected im-
mediate payment, as many of them
needed every dollar to be had in order
to help to care of their dependent
families. No money was forthcoming,
and the men were sent off to Texas.
Shortly after their arrival there they
were required to sign another form of
payroll, with the statement that the
government had abandoned the first
form which they had already signed,
and that their previous signa-
ture, therefore, did not count, and they
must wait another long delay of red
tape before they could be paid. Mr.
Wm. C. Perkins, a prominent business
man of Baltimore, who has recently
made a personal investigation of the
situation on the border, gives this and
many other illustrations of incompe-
tence, inefficiency and red-tapeism in a
letter to the Baltimore Sun. Any state-
ment made by Mr. Perkins can be ac-
cepted without question, and in this
case he simply confirms what is being
published in many of the daily pa-
pers of the country from correspond-
ents on the ground. It is well, there-
fore, that a strong business organi-
zation, such as that of the Merchants'
Association of New York, has taken
the lead in demanding that these men
shall be brought home."

The merchants' association of New
York, the Manufacturers' Record and
all of us might have known all that
before this unmilitaristic country de-
clared that it could make a mobile re-
serve army of the National Guard.
While the attempt was being made to
mobilize the National Guard we hap-
pened to call attention to the difficul-
ties and the well nigh impossibility of
doing it. The National Guard did not
think so. It considered itself an effi-

cient military institution and brought
pressure to bear on Congress so it
could prove its usefulness to the coun-
try.

The Guard was patriotically sincere
and honest, yet it did not realize what
it was up against. There was no com-
pulsion about it. It was done at the
behest of the National Guard, so the
government is not to blame for it, be-
cause it was an innocent by-stander.
This is not a militaristic government,
but it had to face a crisis in Mexico
and had to have soldiers or the next
thing to soldiers. The National Guard
came nearer being an easily mobilized
military force than 100,000 raw recruits
would have been, so it was mobilized.

What do the difficulties met and
proven amount to? Why it amounts
to this: That we learn from experi-
ence wherein our military system
isn't any system but is only the nucleus
of one. We have a military system to
get and we have found it out by our
experience on the Mexican border. How
else could it have been learned?

Nevertheless, the National Guard
was the only dependence at the time
that the situation became critical on
the Mexican border. The country had
nothing else in the shape of troops to
call out. The system was established
under a Republican administration, but
it certainly has failed a Democratic
administration," according to reports
in the daily papers and from well in-
formed business men who are in touch
with the situation on the Mexican bor-
der. However, the Nation's trained
army men are in closer touch with
the situation, so the country had bet-
ter wait till they report upon it and
discuss it from an efficient military
view. Various private and political
views have nothing to do with bring-
ing a military system out of the seem-
ing chaos existing at present.

Say what we will, the National
Guard consisted of all the troops, trained
or untrained, that the government
had to send to the army on the Mex-
ican border. If it has to be withdrawn
we will have to go down with an army
of mouthy interventionists and per-
form the herculean task which they
have so glibly urged for three years.
It is only on the Mexican border get-
ting experience can the National Guard
get the training that soldiers must
have. However, it is no place for tin
Lizzies.

THE GOVERNMENT NITRATE PLANTS.

Congress recently appropriated sev-
eral millions of dollars to establish
one or more nitrate plants, probably
one big plant, to be located somewhere
with a view to plenty of electric power
and the availability of limestone, the
necessary material to be hydro-electric-
ally converted. Mussel Shoals, a great
water power, on the Tennessee river in
North Alabama, wants the plant and it
seems to have gotten ahead of all other
Southern localities of recognized avail-
ability.

The Augusta Chronicle urges that
one of the government plants be lo-
cated there, but that paper points out
how Mussel Shoals now has the inside track,
simply because of organized efforts and
systematic, methodical publicity. Mus-
sel Shoals is showing them all how to
attract attention when that commodity
becomes valuable to a community. The
Mussel Shoals plan is the real way to
do it, and so the Chronicle points to it
as an example. Nevertheless, that es-
teemed contemporary says Augusta
possesses every advantage for a hydro-
electric nitrate industry.

The Columbia Record makes the same
claim for Columbia. A telegram from
Senator E. D. Smith to the Record shows
conclusively that Columbia is ideally
located with reference to the manufac-
ture of nitrates. Columbia has the
power, says the Record, while immense
quantities of limestone exist on the
Santee river, not many miles below
Columbia.

The question of availability as to
power and limestone ought to control
in the establishment of any of the gov-
ernment plants. Southern editors do
well when they can be so thoroughly
posted on the local resources that they
can point out the advantages in them.
If only after they are pointed out, the
business men of a community would
properly use the facts in a systematic
campaign for widespread publicity.

BEEF CATTLE FOR RICHMOND OR ORANGEBURG

One of the most progressive farmers
of the Black River section was in the
city yesterday and inquired whether
Wilmington's packing house would be
ready in time this fall for him and
other farmers to market their beef cat-
tle and hogs. He says he has some of
as fine cattle as can be raised anywhere
and that they would be profitable to
him at anything like a fair price. They
have grown fat and heavy on the rich
drained lands of Orangeburg, but
Wilmington hurries up with the pack-
ing house his cattle and hogs will have
to be sent to Richmond, Va., or per-
haps to Orangeburg, S. C. He states
that there is only a limited wagon or
peddler's market in Wilmington at
present and that it does not require
much country killed beef and pork to
supply the demand.

That is true, of course, and that is
the reason that Wilmington proposes
to establish as early as possible the
most up-to-date packing house in the
South. There is only a local market
here for the grade of cattle now being
raised by our farmers and it is said
that the supply of pure breeds of beef
cattle is so much larger than ever that
considerable shipments will be made to
either Richmond, Chicago or Orange-
burg if our packing house is not ready
by mid-winter. We don't think there is
any doubt about the packing house.

NEW BERN GETTING INDUSTRIES

The New Bern Sun Journal says New
Bern needs a number of new industries,
although that paper goes on to add:
"We have secured several during the
past few months, but we need more of
them and have got to get them."

It is gratifying to note that New
Bern has hit upon a plan to secure new
industries, and that is by making a
persistent, purposeful effort to "point
out the industrial opportunities there
for capitalists. If we know what our
resources and advantages are it is
easy to advertise the opportunities
which they offer to capital."

The gum timber resources alone
along the rivers of this section offer
one of the biggest opportunities we
know of for Wilmington. Chicago is
manufacturing handsome doors, win-
dow casings, and wainscoting and ship-
ping them right back to us. They are
as handsome as mahogany, as those to
be seen at the hotel Wilmington at-
test. We ought to manufacture the

CURRENT COMMENT.

The appointment of Mr. J. O. Carr,
of Wilmington, to be United States Dis-
trict Attorney to succeed Judge F. D.
Winston, will meet with the approval
of the rank and file of the Democratic
party of the State. It satisfies Presi-
dent Wilson and it satisfies those who
know of his worth to his party and
his State.—Whiteville News Reporter.

The Wilmington Star and the Fayette-
ville Observer have paid more than
ordinary attention to a recent editorial
in this paper on "The Factory How to
Get It," applying the logic as especial-
ly adaptable to their respective com-
munities. The factory district of Ashe-
ville, located along the French Broad,
suffered severely during the flood and
Asheville, in an endeavor to save the
situation, has hit upon something like
the very plan advocated by The Obser-
ver. The citizens of the National Farm
Field, organ of the National Farmers'
Union, after the Louisville plan, and
that consists in raising funds for the
encouragement of manufacturing inter-
ests, the stock being subscribed by lo-
cal capital. Asheville, through this sys-
tem of local co-operation, may not
only hold the plants that were destr-
oyed, but secure others to swell the in-
dustrial tide of the mountain city.—
Charlotte Observer.

National rural credit is out of poli-
tics. It is true, as Mr. Butler repeats,
that the Republican National platform
"denies" the law that has been passed,
and which was then in its final
stages. That denunciation is one of the
big political jokes of the year. The
Democrats, being in power, will claim
the most credit for the law, but it is
not even left in politics as much of a
tangible asset for their fall campaign.
Nearly all the Republicans in both
houses voted for it. It is a credit to
this party. It is a thing accomplished.
Moreover, it is acceptable. There
is one and only one class of citizens
who are in position to say whether
the rural credit law is acceptable.
They are the agricultural lenders. And
we are assured that most of them find
it so. "Not so good as we should have
liked but better than we expected." This
expresses the view of the National
Farm Field, organ of the National Farmers'
Union; and this opinion, the Progress-
ive Farmer says, in line with Presi-
dent Wilson's own moderate declara-
tion: "I look forward to the benefits of
this bill not with extravagant expecta-
tions but with confident expectation
that it will be of very wide-reaching
benefit."—Greensboro News (Ind.).

SEABOARD LINE OPEN.

Through Trains Operated to Atlanta,
Birmingham and Florida Cities.

After having had both its main lines
to the South closed for ten days on ac-
count of the recent severe floods in the
western part of North Carolina and the
heavy rains in South Carolina, the Sea-
board Air Line yesterday opened both
regular and now operating trains over
its own system to Atlanta and Bir-
mingham and from Hamlet to Colum-
bia, Savannah and Florida cities. Since
the recent washouts at several points
on its lines, the Seaboard has been de-
touring its trains over other lines.

Mr. H. E. Pleasant, traveling pas-
senger agent, with headquarters in
Wilmington, said last night that traffic
over the main line via Hamlet and
Monroe to Atlanta and Birmingham
and also from Hamlet to Columbia,
Savannah and Florida cities was opened
yesterday morning and that from
henceforth trains would be operated on
regular schedules. In many cases it
has been necessary to build temporary
bridges and the resumption of service
over its main lines in so short a time
is a distinct achievement.

DR. W. C. MURPHY EXONERATED

Case Against Former Fender Man in
Washington Dropped After Invest-
igation.

(Special Star Telegram.)
Washington, D. C., July 28.—The
grand jury today exonerated Dr. Wal-
ter C. Murphy of a charge of res-
ponsibility for the death of Miss Es-
telle Crawford which occurred in a lo-
cal hospital December last. The wo-
man was removed from the physician's
office where she had been taken ill the
previous day.

Dr. Murphy was arrested as he was
about to board a train at Union sta-
tion for Burgaw, N. C. His aged
mother who was very ill. The police
thought the physician intended to leave
Washington on account of the young
woman's death and he was placed un-
der arrest. The grand jury, however,
after investigating the case complet-
ly exonerated Dr. Murphy and the case
was dropped today. P. R. A.

RESOLUTIONS ADOPTED BY LOCAL CAMP OF VETERANS

Thanking Local Organizations for
Making Reunion a Success.

Resolutions thanking the various
local organizations for their co-opera-
tion in making the recent State reunion
of Confederate Veterans in Wilmington
a success, have been adopted by Cape
Fear Camp, No. 254, United Confederate
Veterans, as follows:

"This Camp believes that the reunion
of Confederate Veterans just ended has
been a great success, but only through
the kind and generous assistance of
the following local organizations and
institutions: the officers and crew of
the cutter Seminole, the Wilmington
Light Infantry, the members of the
Fire Department, the members of the
Police Department, the Tidewater
Power Company, Messrs. Howard &
Wells, the Boy Scouts, the owners of
the buildings occupied by the Veter-
ans as quarters, the Cape Fear Chap-
ter of Daughters of the Confederacy,
the George Davis Camp of Sons of Vet-
erans, the marshals of the parade, the
finance and automobile committees, and
the people of the city of Wilmington
generally our grateful thanks are due
and are herewith tendered."

PLANS ARE MADE FOR THE FEAST OF LANTERNS

Celebration to be Held at Wrightsville Beach in August

Entertainment Committee of Welfare League of Summer Resort Outline General Nature of the Big Summer Festival.

The Feast of the Lanterns which was observed for the first time at Wrightsville Beach last summer with such great success will be again observed on August 17 and 18. It was decided by the entertainment committee of the Community Welfare League of Wrightsville Beach at a meeting held last night in the lobby of the Oceanic hotel. General plans for the celebration, which is to extend over two days this year instead of one as was the case last summer, were outlined and an executive committee was appointed to take charge of all the arrangements.

It was unanimously decided that Mr. H. E. Bonitz, who managed the arrangements for the observance last year and to whom was due much credit for its splendid success, was appointed chairman of the executive committee. The other members of this committee are: Mayor T. H. Wright and Messrs. B. H. Bridges, W. A. French, W. B. Schuler, J. R. Eddy, A. B. Skelding, Charles Hooper, Edgar Hinton and Mrs. Cuthbert Martin. This committee will appoint other committees to take charge of the various features and was authorized to take charge of securing of finances for the undertaking.

Editor James H. Cowan, of the Evening Dispatch, was chosen chairman of the meeting last night and Mr. J. R. Eddy was made secretary. Mr. H. E. Bonitz was asked to explain the purpose of the meeting. Mr. Bonitz spoke of the celebration last year and stated that it was the intention of the residents of the beach to make it an annual affair and that it was planned to have the Feast of Lanterns this year on an even larger scale than was last year. He explained that all the railroads in the South have made extremely low rates for all the larger cities beginning on August 18 and that this would make it very convenient for people of these cities to be on hand for the celebration.

Mr. Hugh MacRae, who attended the meeting and who was the first to suggest having a Feast of Lanterns at the beach, pointed out that the celebration was not intended to help any person or cause and that it was a cooperative enterprise in which all were expected to take part and which had for its object the making of the beach more popular with the people by providing wholesome entertainment and diversions.

It was the unanimous sense of the meeting that every person on the beach as well as in Wilmington should join hands to make the Feast of the lanterns an annual event and one that will be a success in every particular.

Tentative plans discussed last night provide for a parade on the night of August 17, starting at the Carolina Yacht club and ending at the Oceanic hotel and if possible, to secure a 100-foot dragon to be carried by a large number of young men. It is expected that many organizations will take part in the parade and that each will have some "stunt." It was also suggested that there should be carnival queens, dressed in Japanese costumes and carried in jirikishaws with a prize to be given to the most attractive queen. Another feature will be the fireworks on the ocean front. A brass band will lead the parade. After the parade there will be a special dance in which the participants will be in costumes appropriate to the occasion.

It was also planned to have maypole dances and other features in the afternoon that will appeal particularly to the children.

On the second night it is planned to have a boat parade from the beach to Lumina in Bank's channel. Another feature will be the souvenir dance with confetti and serpentine dances as a special feature.

Numerous other suggestions were made for making the celebration one that would appeal to a great many people. One of the suggestions that met with much favor was that a brass band contest be conducted with attractive prizes to be given for the band adjudged to furnish the best music.

Members of the entertainment committee of the Community Welfare League of Wrightsville Beach, announced yesterday by Mr. J. Allan Taylor, president of the organization, are: H. E. Bonitz, T. H. Wright, Burke H. Bridges, W. A. French, R. E. Foster, James H. Cowan, W. B. Schuler, Charles Hooper, Edgar Hinton, A. B. Skelding, J. R. Eddy, Don Richardson, Mrs. Wallis, Mrs. Cotchett, Mrs. Annie J. Northrop, Mrs. Parley, Mrs. Crabb, Mrs. W. H. Northrop, Jr., Mrs. Paris, Mrs. Barclay, Mrs. Beady, Mrs. Dunn, Mrs. Cuthbert Martin.

NEW STORE OPENED

Payne Drug Company Formally Opened Its New Building Yesterday.

The new building of the Payne Drug Company at Red Cross and Fifth streets was formally opened yesterday. This handsome store is modern and up to date in every particular, and its opening was one of the most elaborate in the history of the city. Neither pain nor expense were spared in order to make it a success. Ice cream, cake and punch was served to the guests, while the West-Whitlock band rendered a delightful musical programme.

The new store has a front entrance on both Red Cross and Fifth streets.

Mr. Harry E. Payne, the proprietor, is a native of Reidsville, and has been a resident of Wilmington since 1912. He is a graduate of the Page School of Pharmacy.

DEFENDANT IS TAXED WITH COSTS ON ASSAULT CHARGE

Two Colored Boys Charged With Homebreaking Before Recorder.

At yesterday morning's session of the Recorder's court, the chief sufferer was Ingram Flynn, colored, who was given a suspended judgment upon payment of the costs on an assault charge. Two colored boys, Buck Donaldson and John Ferguson, charged with homebreaking in connection with the entering and robbing of the residence of Capt. W. H. Northrop, Jr., on Market street several weeks ago, had their cases continued until today.

Of the dog tax cases before the Recorder, four defendants were dismissed upon exhibiting badges, two were held open and two were continued.

BETTER DRAINAGE SYSTEM

To Be Provided for Winter Park Section as Result of Conference Held at Court House Yesterday.

As a result of a conference held yesterday morning between a committee of citizens of Winter Park, appointed at a mass meeting held at the school house in that suburb Thursday night, and Chairman W. A. McGirt, of the board of county commissioners, it was agreed that in order to provide more adequate drainage facilities for Winter Park it will be necessary to open up and make larger the Masonboro turnpike ditch on the west side of the turnpike crossing to the beach, open up the turnpike culvert which has become clogged, and also have a survey made of the section north of Wrightsville Beach road and north of the railroad to determine what further ditching is needed to carry off the water during long rainy spells or following heavy thunder showers.

Chairman McGirt stated that Road Superintendent R. A. Burnett would at once open up the drainage canal where it crosses the turnpike. He also announced as a result of the statement made by the members of the committee concerning the seriousness of the situation as was made evident by the flooding of yards and gardens during the recent heavy rains, that Mr. J. L. Becton, civil engineer, would be employed by the county to make a survey of the sections north of the railroad and north of the beach road, to determine what further drainage ditches need enlarging.

It was the consensus of opinion of those attending the conference that the enlargement of the ditch on the south side of the railroad would relieve the situation so far as that part of the section is concerned, if the Tide-water Power Company will put in a larger culvert at the Masonboro crossing. This Mr. Hugh MacRae, president of the company, agreed to do, provided Mr. Becton reports following his survey that it is the only way to provide adequate drainage.

At the meeting of citizens held at the Winter Park school house Thursday night, which was presided over by Mr. J. T. Sholar, the following committee was appointed to take steps to secure a better drainage system for the section: Messrs. L. D. Latta, A. R. Viner, E. E. Loftis, L. O. Ellis, J. S. Brown, T. Sholar and James C. Hobbs. It was this committee which conferred yesterday morning with Chairman McGirt and Mr. Hugh MacRae.

At the mass meeting it was agreed that the main trouble with the drainage was due to the fact that the terra cotta pipes which had been relied on to carry off the water in the ditches were entirely too small to carry off the volume of water deposited during a protracted wet season.

A second mass meeting of residents of the Winter Park section will probably be held at the school next Monday night at 8 o'clock for the purpose of discussing what further steps, if any, should be taken in the matter of improving the drainage system for that section.

Fine Catches at Carolina. Messrs. J. W. Blake, W. E. Yopp, R. L. Johnson and Jack Hart, of this city, had some very fine sport Thursday fishing from the wreck of the old Venus at Carolina Beach, the party having landed during the course of the day 35 fine blue snappers, 40 or more pig fish and a number of black drum. They were much pleased with the day's sport and will "go again."

In the absence of the rector, Rev. William E. Cox, Bishop Thomas C. Darst will preach and administer the Holy Communion in St. John's church, Sunday morning at the 11 o'clock service.

COMPLETE SURVEY TODAY

Mr. D. Tucker Brown and Engineering Party Spent Last Night in Wilmington—On Last Lap.

Having gotten within six miles of Wilmington on the preliminary survey of the Wilmington-Fayetteville highway from Clinton to this city, Mr. D. Tucker Brown, engineer of the State Highway Commission, and the party of surveyors spent last night in the city and will finish this part of the survey by today at noon. The party will make a preliminary survey of the route from Clinton to Fayetteville.

The present survey is not for the purpose of locating the permanent highway but simply to collect data for making a map of the present roads and the location will be made later. The party came overland via Harrell's store and Long Creek, covering a distance of 66 miles. When the road is straightened out, Mr. Brown estimates that the distance will be shortened at least six miles.

Mr. Brown spoke very enthusiastically of the splendid hospitality of the people along the highway and declared that they had treated the members of the party in a most kindly manner. He felt that it is but a short time now when the improved highway will be a reality and not merely a matter of contemplation. He had found the people very much in favor of the highway and believes that it will receive the cordial support of the residents of the counties of Pender, Duplin and Sampson as well as Cumberland and New Hanover.

Back From Flooded District.

Mr. H. G. Foard, the well known insurance man, is at home after having been marooned for a week in Asheville following the flood a week ago. Mr. Foard doesn't share the usual condemnation of the railroads and other public service corporations for the way in which they handled the most appalling situation and looks interestingly of the scenes in Western Carolina on this occasion and some of the big problems that had to be met by the people there. While in Asheville he secured a number of striking views of the flood and these have been placed on the bulletin board at the Wilmington public library for the benefit of any who may wish to see them. He had to return to Wilmington via Atlanta and the "Southern route" that has proved so popular with travelers from Western North Carolina of late.

CAPT. WM. A. CANADY DEAD

Veteran Fireman Succumbed to Heart Trouble While Sitting on Porch of Cottage at Harbor Island.

Capt. William A. Canady, 59 years old, for 19 years a member of the Wilmington Fire Department and foreman of Engine Company No. 2, since 1893, died suddenly yesterday afternoon from heart trouble while sitting in a chair on the front porch of his cottage on Harbor Island at Wrightsville Beach. Captain Canady, who was with his son, Mr. Percy Canady, was spending a ten-day vacation on the Sound was found by Mr. Washington W. West, of this city, about 7 o'clock last night. Just when death came is not known, as his son who is employed at Lumina had left home early yesterday morning and no one was with Capt. Canady at the time.

Capt. Canady had spent a considerable portion of the day fishing on the Sound with Messrs. J. D. Wright and J. Hargrove, members of the Wilmington Fire Department, after returning from the fishing expedition, he complained somewhat of the heat to his companions, and it is believed that the heat coupled with over exertion proved too much for his heart from which he had suffered for some time.

Fire Chief Charles E. Schnibben stated last night that he had spent a part of Thursday afternoon with Capt. Canady and that he had made a survey of not feeling very well, he appeared to be in his usual health. Chief Schnibben said that Capt. Canady had said at that time that he had been advised by his physician not to overtax himself.

Capt. Canady, who was one of the oldest as well as the most popular members of the local fire department, was born at Snead's Ferry. He had made his home in Wilmington for the past 20 years and resided with his son, Mr. Percy Canady, at Fifth and Castle streets. He joined the local fire department in 1897, or at the time when it was first organized on a paid basis. He has been a faithful and efficient member ever since and was promoted to the position of foreman of Engine Company No. 2, in 1933. The body was removed from the cottage at Harbor Island to the undertaking parlors of Mr. Walter E. Yopp, where it will be prepared for burial. The death will be mourned by four sons, Mr. Julius Canady, of Seagate; Mr. Percy Canady, of this city; Mr. Grover Canady, of Union Hill, N. J.; and Mr. Oscar Canady, of Boston, Mass. Two half-brothers also survive him, Mr. Jesse Canady, of this city, and Mr. U. D. Canady, of Snead's Ferry.

PRISONER ESCAPES

George Powell Makes Get-Away From New Hanover County Jail.

George Powell, white, who was sentenced to serve one year in jail on the charge of obtaining money on a fraudulent bill of lading from the firm of W. B. Cooper & Company by Judge C. C. Lyon at the last criminal term of Superior court, escaped from the county jail some time last week and has not been heard from since.

Powell, who had undergone several operations was physically unfit to do any work on the county road and for that reason was committed to the county jail. He was being held there pending an operation, which he had been advised might improve his health. Powell was kept in a cell for a time but was later allowed the freedom of the office, which is almost as strongly barred as any other part of the building. One day last week, Mr. E. H. Powell looked in the office of the jail, while he went over to the court house to attend to his duties there, on his return, he found that the prisoner had escaped by peering the lock to the outside door of the office.

ORDER COMPANY TO MUSTER

War Department Grants Petition of Wilmington Engineering Company—In Service Soon.

The War Department has granted the petition of the Wilmington company of engineers to be mustered into service and has ordered that this be done at once. Lieut. Col. Joseph Hyde Pratt, of Chapel Hill, has been ordered to Wilmington to muster the men into service and will probably be in Wilmington Monday night when a public meeting will be held at the court house. Lieut. Edward H. Holmes, who heads the recruiting party sent to Wilmington to secure recruits for the National Guard, has also been directed to assist in mustering the men into service.

Mr. George Gillette has secured the promise of more than 45 men for the required number for an engineering company, that they will be ready to be mustered in Monday night. However, this does not mean that they are being mustered into Federal service but simply as members of the State National Guard.

It was stated at the office of the Adjutant General yesterday afternoon, according to a dispatch to The Star last night, that it is the purpose of the War Department to have the two engineering companies being formed for this State at Wilmington and at Charlotte mobilized at Camp Glenn with the other National Guard troops just as soon as they are mustered in. However, the impression gained from private advice received in Wilmington is that the company would not be sent to Camp Glenn at this time.

Following the mustering in of the company all necessary equipment for such a company will be issued by the State. The equipment will include uniforms, rifles, surveyor's instruments, electrical appliances, wagons, pontoons, etc. This will be kept in an armory that is to be secured in a convenient building in the city.

Yesterday's Raleigh News and Observer has the following with reference to the two engineering companies:

"Application was received at the Adjutant General's office and the necessary orders issued for the organization of a company of engineers at Wilmington. Lieut. E. H. Holmes, of the Second company coast artillery, was appointed to muster in the company which will proceed to Camp Glenn as soon as the organization is perfected. An application is on the way for the organization of a company at Charlotte. Orders will be issued for the formation of this company as soon as the applications are received. These two companies will form North Carolina's quota in the engineering troops of the Ninth division, which embraces this State, South Carolina and Georgia."

ENDOWMENT FOR ST. MARY'S

Rev. Francis M. Osborne, of Charlotte, in Wilmington in the Interest of Raleigh School.

Rev. Francis M. Osborne, of Charlotte, who has been chosen by the trustees of St. Mary's School at Raleigh to organize and lead a movement to secure a \$250,000 fund for that institution, was in Wilmington yesterday in the interest of this work. Mr. Osborne will resign as rector of the Bishop Atkinson Memorial Episcopal church in Charlotte, the middle of September, and after that date he will devote his full time and energies to promoting this special fund. Mr. Osborne, therefore did not come to Wilmington at this time with the idea of starting the work of raising funds but merely to discuss it with the friends and alumnae of St. Mary's school, the general plan of procedure to be inaugurated in the fall.

St. Mary's school is just entering upon the 78th year of its educational work, and for three generations the people of Wilmington have been closely identified with it. Scores of prominent Wilmington women, both old and young, remember their alma mater with affection and gratitude. Not only among Episcopalians, but among many others in St. Mary's highly valued for the sake of its educational influence among the people. Not only has it had a conspicuous career, but it is today one of the educational assets of the entire State.

Mr. Osborne was encouraged to find in Wilmington a very sincere, and deep-rooted interest in the school, and the outcome of this visit of inquiry was the determination to return in the fall, and organize a strong committee of men and women, who will determine what Wilmington's share in this enterprise ought to be, and in what way the people of this city can discharge their obligations and debt of gratitude.

"When the Episcopal church purchased St. Mary's school 20 years ago," said Mr. Osborne yesterday, "The people of Wilmington contributed to the purchase fund liberally, and among the more generous donations since then, the names of Wilmington men and women are prominent. Wilmington's accustomed hospitality toward all causes that vitally affect the intellectual standards and moral ideals of the State, is an assurance that she will be second to no city in either North or South Carolina, in doing her part by St. Mary's School, when the proper time comes."

The need of the \$250,000 fund is to pay off certain building debts of the school, to remove the older buildings and to provide a new and larger building to accommodate an increasing number of students, and to begin a small endowment to enable the school to pay higher salaries which the best teachers are demanding. When this is done the school will be in a particular way to date in quality and equipment."

STENOGRAPHERS NEEDED

Government Announces Examination to Be Held in Wilmington Next Month.

Can you use a typewriter and do you write shorthand? If so you may be interested in the announcement just made by the government through the Civil Service Commission that an examination will be held on August 15 in Wilmington and a score or more cities in North Carolina, West Virginia, Virginia, Maryland and the District of Columbia. However, it is provided strictly that no ladies need apply as Uncle Sam needs these stenographers for field service and it would be too much trouble for women to have to pick up their baggage every 30 days or so and move to some other place. The only age limit is that applicants must be over 18 years old. Full information as to the nature of the examination may be had upon application to the secretary of the local board of Civil Service Examiners in Wilmington or to the District Secretary of the Fourth Civil Service District at Washington.

The Civil Service Commission announces that the demand for men for these positions has recently been greater than the supply and qualified persons are urged to enter this examination, if they desire a position with the government, as there is every reason why they should be successful.

SOUTHERN SYNOUD TO MEET IN WILMINGTON

Annual Convention Will Be Held in St. Paul's Church.

The Southern Synod of Lutheran churches will convene in St. Paul's Evangelical Lutheran church in Wilmington next November. The session will open on November 7 and will continue through the following Sunday. It is considered quite a distinction in church circles to entertain this body as it meets but once every two years, and is composed of delegates from practically every Lutheran church in the South.

The Woman's Missionary Societies of these churches will also convene here at same time. While in Wilmington the pastors and delegates will be the guests of the Lutherans of the city.

How to stop dandruff and loss of hair with Resinol

Here is a simple, inexpensive treatment that will generally stop dandruff and scalp itching, and keep the hair thick, live and lustrous:

At night, spread the hair apart and rub a little Resinol Ointment into the scalp gently, with the tip of the finger. Repeat this until the whole scalp has been treated. Next morning, shampoo thoroughly with Resinol Soap and hot water. Work the creamy Resinol lather well into the scalp. Rinse with gradually cooler water, the last water being cold. All druggists sell Resinol Soap and Ointment.

THEIR INFANT SON DEAD

Mr. and Mrs. B. C. Moore Bereaved at Family Home in Hopewell.

Many Wilmington and Eastern Carolina friends of Mr. and Mrs. B. C. Moore, formerly of this city, now residing at Hopewell, Va., will sympathize with them in the death of their infant son, B. C. Moore, Jr., aged about four and a half months, which occurred at the family home in an early hour. A telegram to Mr. E. P. Schulken brought the sad news to the many friends of Mr. and Mrs. Moore here.

DELIGHTFUL PARTY GIVEN

IN HONOR OF YOUNG WOMEN
Among the pleasant social events of the week in Wilmington was a party given by Mr. John T. French, on Thursday night, at the home of his mother, No. 113 North Eighth, in honor of several visiting young ladies. The home was beautifully decorated in flowers and bamboo, the color being pink and green. There were six tables at which several contests had been arranged. The decorations and the contest cards were the work of Mrs. John French, who is especially gifted in such work. The cards for the floral contest were beautifully hand painted roses, which were kept as souvenirs by the guests.

Punch was served during the evening, and ice cream and cake at the close of the contests, after which music and games amused the guests until 11:30. The young ladies present were: Misses Jeanette Patterson, Augusta, Ga.; Katherine McClean, Mt. Olive; Estelle Yarboro, Salisbury; Ethel and Mary Lou Waters and Helen Cohen, Goldsboro; Edith Adams, Winston-Salem; and Florence Scott, Hazel Winstead, Arline Standand and Alberta Creasy, of Wilmington.

The young men were: Messrs. Lynell Todd, Augusta, Ga.; Harry Waters, Goldsboro; and Harry Merritt, Robert Vaughn, W. S. Creasy, A. G. Creasy, Harry Boone, W. L. Farmer, Graham Farmer, and Mr. Cashwell, of Wilmington.

WEDDING IN WAYCROSS OF

INTEREST IN WILMINGTON
Many friends in Wilmington, where the bride lived until three years ago, will be interested in learning of the marriage of Miss Emma Jeanette Owen to Mr. John Monroe Sykes, which was solemnized this week in Waycross, Ga. The following is from the Waycross Journal-Herald:

"Most beautiful and impressive in its perfect simplicity was the wedding ceremony of Miss Emma Jeanette Owen and Mr. John Monroe Sykes, which took place last evening at the home of the bride's parents on Seventh avenue at 6:30 o'clock, in the presence of the immediate family and near relatives, the Rev. H. R. Holcomb officiating.

"Miss Mary Jackson, of Atlanta, the

house guest of Mrs. Julius A. Wright, gave a number of musical with a lovely grey crepe de chine with selections before the ceremony. She touched of rose.

"The bride party entered to Lohengrin's wedding march. The bride was beautiful in her traveling suit of midnight blue, with shoes, gloves and hat to match. Her corsage was of bride roses and valley lilies.

"Mrs. Julius Wright was her sister's only attendant. She wore a handsome yellow crepe de chine and carried white carnations. Mr. E. P. Owen, Jr., of Jacksonville, was best man.

"The house was beautifully decorated for the occasion, quantities of ferns, palms, garden flowers and potted plants being used. A delicious ice course was served by Misses Mary Lee and Sallie McCraw, of Wilmington, N. C., and Misses Lulu and Bernice Owen, all in the delectable of white summer frocks.

"The bride is the charming daughter of Mr. and Mrs. E. P. Owen, and has been one of the most popular girls in her social set.

"The groom holds a responsible position with the Coast Line.

"Mr. and Mrs. Sykes left immediately for Wrightsville Beach, N. C. After the first of August they will be at home with Mr. and Mrs. Julius A. Wright, 45 Elizabeth street."

MORE THAN 1000 RAISED

FOR NEEDY AT TOURNAMENT

As a result of the bridge whist tournament held yesterday morning at the Seashore Hotel at Wrightsville Beach for the benefit of North Carolina flood sufferers more than \$1000 was raised. Through the courtesy of Capt. Edgar L. Hinton, the tournament committee, of which Mrs. F. L. Huggins was chairman, was allowed the use of the big hall room at the hotel.

In this room 40 tables were placed for the more than 100 ladies and gentlemen who took part. Twenty-five handsome prizes were awarded the winners. Mrs. Huggins stated last night that \$108 had been raised as a result of the tournament and cash donations, but that this figure would be increased by the sale of tickets at various stores, which have not been reported yet.

The following business firms and individuals contributed prizes or money to the fund: George Honnet, silver loving cup; Schuster, silver vanity case; J. H. Rehder & Company, flowers; Miss Lucy Moore, plants; Tidewater Power Company, electric iron; G. Tannenbaum, blouse; William Goodman, blouse; R. R. CHINAMAN SUFFERS FROM

FREQUENT RAIDS ON HOME

Jesse Fuller, colored, arrested on charge of being intruder.

Frequent raids on the home of B. F. Sin, a Chinaman, who conducts a firm near Love Grove in the northern part of the city, have caused him much inconvenience recently. Only Saturday of last week upon his return home he found that three of his finest turkeys and a good razor had been carried away. A few days before several negro boys had been arrested for robbing the Chinaman's home and after hearing the evidence, Recorder Simple held them for the next term of Superior Court.

A negro had been seen Saturday leaving Sam's home with a bag over his shoulder, which probably contained those three turkeys that Sam prized most highly. County Officer H. Mack Godwin was put on the job and after extended investigation found circumstances pointing toward Jesse Fuller as having been the perpetrator of the bold stealing.

A warrant was sworn out yesterday and Officer Godwin then went to Fuller's home in East Wilmington, where he arrested the negro without difficulty. Fuller only got off the road ten days ago after having completed a sentence of 18 months given him on a charge of larceny. He stoutly denied having been near the Chinaman's home or having any knowledge of the stealing of the turkeys.

The negro was lodged in the county jail and will have a hearing this morning before Justice Harris.

TO PASS ON HORNE'S SANITY

Commission Appointed by Governor Craig Will Meet in Raleigh Monday.

Owing to the conditions arising from the heavy floods in Western North Carolina, Dr. Campbell, superintendent of the State Hospital for the Insane at Morganton, has found it impossible to serve on the commission, appointed by Governor Craig to pass upon the sanity of Melvin Horne, now under sentence of death for the killing of Mr. D. L. T. Capps, and Dr. Pendleton, who is connected with the State Hospital in Raleigh, has been appointed in his place. The other members of the commission are Dr. Albert Anderson, superintendent of the Raleigh hospital, and Dr. Faison, superintendent of the Hospital for Insane colored people at Goldsboro.

The commission has been called to meet at the State penitentiary, where Horne is now confined, on Monday of next week. They will make a thorough examination and report their findings to Governor Craig. Cyrus Hogue and Kenneth Burghin, Esq., attorneys for Horne, will attend the hearing in Raleigh.

For a July Time
go to Lumina tonight. All Wilmington will be there. (Advertisement.)

Wrightsville Beach

FAMILY AVOIDS SERIOUS SICKNESS

By Being Constantly Supplied With Thedford's Black-Draught.

McDuff, Va.—"I suffered for several years," says Mrs. J. B. Whitaker, of this place, "with sick headache, and stomach trouble."

Ten years ago a friend told me to try Thedford's Black-Draught, which I did, and I found it to be the best family medicine for young and old.

I keep Black-Draught on hand all the time now, and when my children feel a little bad, they ask me for a dose, and it does them more good than any medicine they ever tried.

We never have a long spell of sickness in our family, since we commenced using Black-Draught."

Thedford's Black-Draught is purely vegetable, and has been found to regulate weak stomachs, aid digestion, relieve indigestion, colic, wind, nausea, headache, sick stomach, and similar symptoms.

It has been in constant use for more than 70 years, and has benefited more than a million people.

Your druggist sells and recommends Black-Draught. Price only 25c. Get a package 10-day.

COTTON AGAIN MOVES UP WEEK'S REVIEW OF COTTON LOSSES PARTLY RETRIEVED

Active Buying Sends Prices Into New High Ground for the Movement. Some Losses Follow.

New York, July 28.—Active buying in the first half of the session today advanced cotton prices to new high levels for the movement and a dozen points over the previous night, but heavy profit-taking in the afternoon destroyed a good part of the improvement.

Unfavorable crop and weather news inspired the early buying which included a good many orders from outside interests who have been attracted to the market by reason of the persistent bullish character of crop news which seemed to be confirmed in a number of private crop reports issued during the day.

One made condition 753 and another 754 while the average decline in reports to a local trade paper from the eastern belt was about 7 points. A feature which gave added importance to the crop news was the appearance for the first time of buying orders from the southeast and also from Texas. Evidence of a new gulf disturbance, while not bearing the character of a tropical storm, nevertheless caused apprehension concerning the possibility of more rain getting into the eastern belt. October, after selling as high as 13.37, weakened to 13.26 under this pressure, while January sold off from 13.62 to 13.51, the close being about the lowest of the day. Commission houses and Wall Street interests who have been prominent on the bull side for several days reduced their holdings in the last hour and there was considerable short selling also. Liverpool closed 8 to 1-2 points higher on the bullish American crop news and expectations of a government report around 77. The market will be closed tomorrow and also on Saturday's during August.

NEW ORLEANS COTTON.
Privies Advance On Bullish Forecast of Government Report.
New Orleans, July 28.—The price of cotton was advanced on this market today by bullish forecasts of the coming growing crop, but the improvement was met by realizing of profits on long contracts, which, in the afternoon exerted such pressure against the market that the close was at a net rise of only 1 to 2 points over yesterday's last quotations. The market was steady throughout and in the early part of the session offerings were scanty.

The new crop months were lifted 11 to 13 points over yesterday's close. The topmost levels were reached around the middle of the morning, after which there was a gradual ease.
Less rain was reported in the eastern belt and a more hopeful view of the crop there was taken by some traders.
Closing bid: August 13.00; October 12.06; December 13.22; January 13.32; March 13.50.
Spot cotton steady and unchanged. Sales on the spot 930 bales; to arrive 45 bales; middling 13.13.

Market Has Shown Increased Speculative Activity—Buying Orders Accompany Crop Reports.

New York, July 28.—The cotton market has shown increased speculative activity during the past week with a strong upward tendency to prices as a result of very bullish crop and weather news, particularly from the eastern belt. For the first time these reports were accompanied by buying orders and the prospects for a bullish bureau report on August 1 attracted a good deal of interest from people who have not been identified with cotton operations in a long time. Private condition figures, issued on Friday, crystallized around 75.5, or about 15 points under the last government report, while special advice from the eastern belt to a local trade paper indicated a decline in condition there of about seven points for the month. Trade interests have shown more disposition to buy this week on the idea that it has been pretty well established that the crop is entering the uncertain August prior in a rather critical position, especially as to the river and that with any further broadening of outside speculation prices might easily work up to still higher levels. Much is expected to develop for the month. Trade interests have the next few days, especially the outcome and direction of the disturbance in the gulf, as well as to the temperatures in the eastern states.

CHICAGO GRAIN MARKET.
Wheat is on the Down Grade During the Larger Part of Season.
Chicago, July 28.—Despite the fact that wheat at one time touched the highest prices of the season, the market, except during the first hour, was on the down grade. Bears made much of assertion by a prominent expert that crop losses would prevent the yield in the Dakotas and Minnesota much under a seven-year average. The close was weak, 1 to 1 1/2 cts. lower than yesterday's close, 1.22 1/2, and December 1.25 1/2. Corn finished 1 1/4 off to 1 1/2 cts. up; oats down to 1 1/2 cts. up, and provisions unchanged to 15c higher.

Wheat—No. 2 red, new 1.27 1/2 to 1.28 1/2; No. 2 hard, new 1.24 1/2 to 1.25 1/2; No. 3 hard, new 1.24 1/2 to 1.25 1/2.
Corn—No. 2 yellow 83 1/2 to 84 1/2; No. 4 yellow 76 to 77 1/2; No. 4 white 78 to 80 1/2.
Cattle—Unsettled; tenders 6.50 to 8.50; ewes 3.50 to 7.75; lambs 7.15 to 11.05.

Washington, July 28.—President and Mrs. Wilson left Washington late this afternoon for a week-end cruise on the naval yacht "Mayflower" down Chesapeake bay. A stenographer was taken along, and it was said the President expected to do some work during the trip on his speech of acceptance to the Democratic nomination. He probably will not return until Monday morning.

LYDD-GEORGE HOPES FOR A SOLUTION YET

Does Not Despair of Eventual Peace in Ireland

Talks of the Break-Down of the Negotiations for Putting the Home Rule Act into Effect Immediately.

London, July 28.—"I don't despair about an eventual solution of the Irish problem in spite of the recent failure to reach an agreement between the nationalists and the unionists," said David Lloyd-George today. He was replying to a request from the Associated Press for his views on the break down of the negotiations for putting the Irish Home Rule Act into effect immediately.

"We achieved at least one thing that had never hitherto been accomplished," continued the British war secretary. "We brought the representatives of the Irish nationalists and the Ulster unionists to the point of shaking hands instead of shaking fists at each other."

Mr. Lloyd-George, acting as the chosen arbitrator in the controversy between the Irish nationalists and the Ulster unionists, had succeeded in so far mollifying the opposing factions that he had brought them within measurable distance of reaching an agreement.

Then Mr. Lloyd-George said in a tone of regret today, "Fate intervened, as it had often done before in Irish affairs and at the last moment a breach occurred."

The secretary for war, however, is still full of optimism regarding the Irish difficulty. He feels about this problem as about everything else he undertakes—that a solution can be reached, and it is his intention to strive on until he is successful. In a reply to a question whether the nationalists were justified in refusing the proposed settlement, Mr. Lloyd-George said: "Never has a better been made by all the British parties together. The only stipulation inserted was one concluding the British and not the Irish parliament. The moment the demand was put forward by the unionists that Ireland should be represented at Westminster only in proportion to her population, except when the question of the Irish settlement was under consideration, it had to be conceded."

CAPTAIN FRYATT IS PUT TO DEATH

(Continued from Page One.)

Informed that five stewards of the steamship Brussels have been taken to a German detention camp. The German office has sent a vigorous protest through the American embassy, demanding their immediate release on the ground that their internment is illegal.

ATTENTION IS CALLED TO GERMAN PRIZE REGULATIONS

London, July 28.—The Captain Fryatt case calls attention to the German prize regulations, which provide that under circumstances similar to the capture of the Brussels merchantmen are to be treated as prisoners of war. An appendix to these regulations issued June 22, 1914, reads:

"If an armed enemy merchant vessel offers armed resistance to the right of visit and search and capture, this is to be broken down by all possible means. The enemy government is responsible for any damage thereby caused to the ship, its cargo and passengers. The members of the crew are to be treated as prisoners of war. Passengers are to be liberated unless it is proved they have taken part in the resistance. In the latter case, they are to be proceeded against in accordance with the extraordinary martial law procedure."

UNITED STATES GOVERNMENT IS INTERESTED IN THE CASE

Washington, July 28.—Germany's execution of Captain Fryatt, the British steamship Brussels, for an alleged attempt to ram a submarine, is regarded in allied quarters here as a brutal violation of international law, likely to result in prompt retaliatory measures by Great Britain. They contend that if a hostile submarine approached the Brussels it was in effect an attack, and Captain Fryatt in making a counter attack by attempting to ram subjected himself only to treatment as a prisoner of war in event of capture.

The United States government is interested in the incident and what may follow it, particularly because of the bearing it may have upon the different problems involved in submarine warfare which in the past have brought the country to the brink of war, because it is charged with the care of interests of prisoners on both sides. Reprisals by the Allies, it is feared, might be followed by a change in the German submarine policy, which has been satisfactory to the United States since the last assurances that merchant ships would not be attacked without warning or without provision for safety of passengers and crews.

Authorities on international law agree that the justice or injustice of the shooting of Captain Fryatt depends entirely upon the circumstances under which he headed his vessel for the submarine. If the submarine attacked or was about to attack him, he had the right to counter attack; if he was seeking out an enemy vessel for attack, he placed himself in the class of a criminal subject to summary execution upon capture.

The question involved in this case has been clouded by the belligerent charges and counter charges concerning the conduct of submarine warfare and the allied efforts to exterminate the German submarine ships have orders from the admiralty to ram any submarine sighted and that the masters of ships carrying out such orders are pirates.

Officials here point out that the United States has taken the position that the master of any merchant vessel who sees a submarine approaching has, from the very nature of the submarine method of warfare, the right to presume that he is about to be attacked. Consequently, it is argued, he has the right in turn to forestall that attack by himself ramming or firing to defend himself.

HOLLAND INDIGNANT OVER CAPT. FRYATT'S EXECUTION

The execution of Captain Fryatt has caused great indignation throughout Holland, says a Reuters dispatch from

Amsterdam, and it is generally compared with the execution of Miss Edith Cavell. The Amsterdam Telegraaf says:

"The execution causes no surprise but excites horror and indignation at a crime which is as mean as the shooting of the brave English nurse. It is a burning shame which calls for vengeance."

TARIFF COMMISSION MAY TOUR EUROPEAN COUNTRIES

May be One of First Tasks Assigned to the New Board.

Washington, July 28.—One of the first tasks assigned to the tariff commission to be created by the pending revenue bill may be a tour of European countries, including the belligerents, to study the effect of the war on industrial and trade relations of the United States and to report particularly information which might aid in the adjustment of tariff duties to meet conditions likely to follow the restoration of peace.

Administration officials here believe that the plan to send the proposed commission abroad was being seriously considered in making public today a letter from President Wilson to Samuel M. Hastings, of Chicago, president of the Illinois Manufacturers' Association, in reply to a telegram from the association suggesting that a special commission be appointed to visit all foreign nations to investigate economic conditions and trade opportunities.

The President said whether the moment to act upon the suggestion was opportune was open to serious question but that when circumstances justified it he intended to take advantage of the revenue bill's provision for investigation by the tariff commission.

AMERICAN PROTEST TO BLACK-LIST IS DELIVERED

Officials of British Foreign Office Decline to Discuss It.

London, July 28.—The protest of the United States government against the British statutory black list was delivered to the foreign office late today but officials there, not having had time to master its contents, decline to discuss it. It is known that while the note is couched in softened language than the mails detention document, it nevertheless plainly states that the United States government cannot admit the validity of the black list on account of the far reaching effects its ramifications will have on the trade of its citizens.

The British government is informed the note will be given the American press on Monday, but there is no indication as yet of the time of its publication here. A diplomat familiar with the contents of the note states that its publication is likely to cause much surprise, as for the last week Washington correspondents of English newspapers have conveyed the impression that the agitation in the United States against the black-list had ceased.

STRANGE WARSHIP WAS WITHIN CAPES

(Continued from Page One.)

admiral, commanding the cruiser squadron off the Atlantic coast, brought to the State Department's attention by the British ambassador, denying that any of his ships had entered American territorial waters, the incident will not be the subject of inquiry or protest. Officials are mystified, however, by Commander Phelps' circumstantial account of what happened.

Following is Commander Phelps' supplementary report:

"About 2:15 a. m., Tuesday, July 25, the Louisiana, then standing for an anchorage in Lynnhaven Bay, being at the time to westward of the line Cape Henry light, tail of the Horse Shoe light vessel, a vessel carrying many of war lights, masthead light, running lights and range lights with the loom of deck standing lights lowed through five or six square ports without any other illumination whatever, came up on the starboard quarter of the Louisiana distant perhaps not more than 750 yards, heading for the channel into Hampton Roads.

The Louisiana blinked interrogatory for several times and turned on man-of-war lights. Finally she answered (blinked) 'English cruiser'. She signalled very rapidly, causing the Louisiana to have her repeat more than once until she disappeared from her signal.

"She disappeared in the thickness toward the channel to Hampton Roads.

"I did not signal to ask her name and her intentions because her actions had seemed suspicious to me, inasmuch as she seemed fairly to disclose her presence, and left me with the feeling that she was actually going into port and would be found off Fort Monroe in the morning."

DEFENSE NOT MERELY A BIG ARMY AND NAVY

(Continued from Page One.)

bill for a national defense is designed to meet this requirement. This council will consist of the Secretary of State, the Secretary of War, the Secretary of the Navy, the chief of staff of the army, an officer of the navy rank of captain or of higher rank and six persons to be appointed by the President who shall be authorities on questions relating to public utilities, industry or natural resources."

This body will be capable of very great and material service to the government in the vital matter of the nation's security. Needless to say men of the highest quality of patriotism and ability will be asked to serve upon it.

Preparedness, to be sound and complete must be solidly based on science. Realization of this fact, the President some time ago requested the National Academy of Sciences to form the National Research Council. That body has been formed and has made a preliminary report. In regard to which the President has written the following letter to Dr. William H. Welch, of Johns Hopkins University.

"I want to tell you with what gratification I have received the preliminary report of the National Research Council which was formed at my request under the National Academy of Sciences. The outline of work there set forth and the evidences of remarkable progress toward the accomplishment of the object of the council are indeed gratifying. May I take the occasion to say that the departments of the government are ready to cooperate in every way that may be required and that heads of the departments most immediately concerned are now, at my request, actively engaged in considering the best methods of cooperating. Representatives of government bureaus will be appointed as members of the Research Council as the council desires.

"Cordially and sincerely yours,
"WOODROW WILSON."

OUTLOOK FOR SUPPLY OF COTTON SERIOUS

Great Lancashire Mills Face Bath- er Gloomy Prospect

Chairman Hutton, of the Council of British Cotton Growing Associations, Makes Statement of Interest to the South.

Manchester, England, July 28.—The outlook in regard to future supply of raw cotton for the great Lancashire mills is serious, according to Chairman Hutton of the Council of British Cotton Growing Associations. Mr. Hutton says:

"The demands of the world for cotton are going to increase, and particularly in America, which country, thanks to the war, is now getting a very strong noid on the export trade. This means that every year when supplies are short there is going to be a scramble for cotton. I do not think one can exaggerate its seriousness. Unless we can build up new supplies in other parts of the world I can see most serious losses facing the Lancashire cotton trade, and it may be that Lancashire will permanently lose a very large proportion of our export trade. If that should happen many of our mills will have to close and a large proportion of the population must migrate."

"The Lancashire cotton industry is mainly dependent on the export trade—probably to the extent of four-fifths of the machinery employed. It has to meet the competition of the whole world and in the past this has been done by producing articles finer and superior in quality than our competitors can produce. For this we must have ample supplies of the longer fiber and better qualities of cotton."

"Lancashire is dependent on America for 87.7 per cent. of the cotton required for the spindles, which have increased to 60 millions and looms to 800,000 and as America consumes more every year it means short time and other difficulties for Lancashire mills besides a shrinkage in exports of cotton goods."

Great Britain, according to Mr. Hutton, is not obtaining the same proportion of the American crop as formerly. In the period 1890-1895 Great Britain took 35.5 per cent. of the American crop but for the period 1910-1915 it was only 35.6 per cent. This is accounted for by the greatly increased consumption on the part of America and if the cotton trade of the world is to be in a position to meet the natural increase in the demand, an increased production every year of at least 500,000 bales is necessary."

Regarding the possibilities of cotton grown within the British Empire, Mr. Hutton considers these are good but the war has set back the scheme for increasing such growth in various parts. India grows hardly any cotton suitable to the Lancashire trade; Egypt produces the sort required but in insufficient quantities; Uganda cotton is all that could be desired but the trade received a severe handicap by the war. Nigeria shows the best possibilities, with a production of 20,000 bales, but here again the difficulty is to establish a good variety which will make the industry profitable to the native.

In urging the government to immediate action to be taken to increase the production of cotton in the British Empire, Mr. Hutton says "the Lancashire cotton trade is faced with most serious difficulties and even with possible ruin and there is not a moment to be lost."

The Hague, July 28.—England has decided that unless the shipment of cotton by Dutch merchants to neutral countries is discontinued, the further supplies of cotton will be permitted to Holland. Announcement to this effect by the British legation has caused some stir throughout Holland. It is generally believed that no room is left for doubting the success of Germany in receiving supplies of cotton in a round about way from Holland through neutral countries.

The Amsterdam Telegraaf says that quantities of cotton goods are regularly exported by fraudulent dealers to fictitious addresses in Rumania and Switzerland and ultimately destined for Germany.

ATTEMPT TO SALVAGE CARGO
OF THE STEAMSHIP MERIDA

Vessel Sunk Fifteen Miles Off Virginia Capes Four Years Ago

Newport News, Va., July 28.—Captain George D. Stillson, commanding an expedition to the Virginia capes where an attempt will be made to salvage the million dollar cargo of the sunken steamer Merida, Captain Stillson said today that the time will be spent in determining the condition of the wreck. The tug then will return to this port and be fitted out for work of salvaging the cargo.

The tug Beckwith, Titania and Fearless.

Captain Stillson is working for the company which insured the Merida's cargo. The Merida was rammed and sunk about 15 miles off the capes four years ago.

CANADIAN GIRL DECLARED
MAD

Chicago, July 28.—Margaret Ryan, a Canadian working girl, was today declared by Judge K. M. Landis, of the United States district court, to be the mother of a year-old child that also has been claimed by Mrs. Anna Dol-Hedgerwood Matters, and a dispute which caused a half dozen lawsuits was settled.

As a result of the decision Miss Ryan is given custody of baby Irene, the child that had been presented to the probate court by Mrs. Matters as the posthumous heir to her husband's \$200,000 estate.

New York, July 28.—The most eminent specialists in medical research work in the United States will confer here in the near future to combat the epidemic of infantile paralysis which has killed more than 700 New York children. Eleven of the country's most prominent specialists, and one in Canada have been invited to attend the conference.
